THE STATE ENUMERATION.

TABLES THAT SHOW HOW THE POPULATION HAS BEEN SQUEEZED IN THE COUNTRY AND EX-

PANDED IN THE CITIES-TOO MANY " ALIENS" TO SUIT THE DEMO-CRATIC MANAGERS.

FROM THE REGULAR CORRESPONDENT OF THE TRIBUNE Albany, April 21 .- The results of the enumeration of the inhabitants of the State made in mid-winter of State, submitted to the Legislature tables giving the figures of the enumeration in each county. The prediction of Republicans as to the consequence of taking the enumeration at such an inclement time of the year, has been fulfilled-the rural counties have apparently not gained much, and, indeed, in a good many cases, have fallen off in

population since the Federal census of 1890 was

taken. But, of course, the Democratic cities are

represented to have largely increased in population. Every politician understands why this plot to show an apparent reduction in the population of rural neighborhoods was carried out. It was because the leaders of the Democratic party desire to diminish the representation of Republican rural counties; the Democratic vote being in the cities. But the Democratic leaders are, nevertheless, dismayed over the large number of "aliens" disclosed in taking the population of New-York and Brooklyn; for "aliens" are subtracted from the population when a reapportionment of the Legislature is made. The leaders of the Democratio party in New-York had been counting upon having thirty-six Assemblymen awarded to New-York. but Corporation Counsel Clark, after inspecting the figures of the enumeration, said: "Well, we shall have thirty-one or thirty-two Assemblymen." It is doubtful if New-York gets more than thirty. Mr. Clark also said that Brooklyn would get eighteen Assemblymen, but the Brooklyn Demo-
